also on tour: sleep like at home  
Thanks wheels it can be easily slide into any room.  
The bed folds up fast and small and transported in a practical carrying bag.

**Productimages:**

---

Comfortable, yet flamboyant. A wonderful bed with a high-quality, aluminum frame. Your baby will sleep as snugly in this bed as he or she does at home, because it has everything you need for travel: changing mat, pocket, 2nd level, wheels, folding mattress and bag for carrying. The Starlight travel bed folds up so it is perfect for travel, visiting grandparents or as a second bed at home.

Change your baby on the move comfortably and pain-free on the practical changing mat with raised edge. The changing mat is secured onto the bed and can be removed at any time. The side pocket keeps nappies and wipes close at hand.

Your little one sleeps on the 2nd level, where even newborns feel safe and secure. The surface for lying is raised so that you can lift your baby out or put him or her in bed easily and without hurting your back. This suspended attachment has a zip fastening for easy removal later on.

Starlight has casters for effortless transport into any room, so your little one is always close by, while you can get on with your work. Your child can play, as well as sleep, in the travel bed. Push the bed into the bedroom to make a handy extra bed. Keep an eye on your little one at all times through the side window.

The bed is quick and easy to put up and fold down and can be stored in the bag to save space. The folded bed is easy to pull along behind you like a case.

The iCoo Starlight offers mobility and flexibility in one.
